Mass and service times. Please take early notice, that while Fr Jim is away in Lourdes (Friday 26th to Friday 2nd August), there will be no weekday Masses. Eucharistic services will continue as usual on Wednesday and Friday.

The weekend of the 28/28th July, the Society of African Missions will be covering the masses. I feel it only right to allow them a retiring collection for their work across Africa.

FUNERAL ARRANGEMENTS FOR REV PETER RUDD

The Requiem Mass for the late Peter Rudd will be on Thursday 25th July, at 12:30pm, here at the Sacred Heart. This requiem will be offered by the Vicar General of Leeds, Monsignor Paul Fisher.

Peter's body will be brought into Church on Wednesday evening 24th July for 7pm with Reception Mass. For those who may not be able to join us for the requiem on the 25th, this is an opportunity in giving thanks to God for Peter's life and work in Saddleworth, and here at Sacred Heart.

Refreshments will be served in the parish centre after the Requiem Mass and the family have asked that as many people stay, so that the family can thank you for your kindness to them since Peter's death.

Early Notice

The weekend of the 28/29th July, there will be **a retiring collection** for The Society of African Missions. This is not an official appeal, as they are only appealing in the Diocese of Salford, but will be covering the masses here as well. I thought it right to allow them a retiring collection for their work across Africa.

Plastic Free July How are you getting on?

Plastic Free July: Some More Ideas

Save Soft fruit Punnets: Reuse them as seed trays for planting seedlings instead of small plastic pots. Use toilet roll tubes in the same way.

Buy a reusable coffee cup: Even cardboard disposable cups are lined with plastic, making them hard to recycle. Also, many cafes offer a discount if you bring your own cup.

Lose the Wet Wipes: Use washable cotton cloths to wipe kitchen or bathroom surfaces.

Ditch the Cling Film: Put a plate on top of a bowl of cut vegetables or leftovers in the fridge to keep them fresh, or use kitchen foil.

And Finally: Use what you have at the moment for as long as possible. When the time comes to replace things, look for non-plastic alternatives. You will be surprised what you can get in metal, wood and glass.

Don't forget the website: everydayplastic.org

You might think that "your" small effort is not worth it, but when millions do their little bit it becomes a massive measure of co-operation and does indeed make a huge impact on the environment.
